

# PRESENTATION POSSIBILITIES

<http://www.apple.com/ilife/tutorials/>

## Media Browser

*Don't forget to save all photos into iPhoto so that they are available to you when using Garageband, Keynote, and iMovie.*

An Enhanced Podcast has voice recording, pictures, chapter markers, and even URLs.

whereas a podcast has only voice recording.

Planning Your Podcast  
Recording Session

## ✧ Enhanced podcast ✧

*Use Garage ,Keynote, photobooth and iphoto to create an enhanced podcast.*

### A. CREATE A TITLE SLIDE:

1. open keynote
2. choose theme
3. type in title of your podcast
4. go to inspector --> document --> slide size --> custom = **600 X 600**
5. File --> send to iPhoto --> name of new album
6. title is now stored in iPhoto. :)
7. You might want to add an credit slide at the end.

### B. ADD PHOTOS:

1. open Garage Band
2. click on Create New Podcast
3. click on scissors -
4. drag title slide to podcast track
5. drag images to podcast track
6. add chapter titles
7. add URLs

### C. ADD VOICE:

1. click male or female
2. click on red record button
3. speak clearly
4. click on red record button to stop.

### D. TO PUBLISH

1. Share
2. Send podcast to iTunes.

Click inside of the  
frame. *Apple iLife 08*

*Always be careful about copyright laws when using music and photos.*
